GERMANY AND MOROCCO.

GERMANY AND MOROCOO.

Count von Bulow's speech in the Reichstag yesterday, as opitoms of which appears in our telegrams, clearly shows that Germany intends to have a finger in the Moorniah pin, and from to-morrow, when the Kaiser lands at Tangier, a new development in the history of Morocoo may not improbably be dated. We are also informed in a telegram from Paris that the sutanois, and has already begun to stiffen his copposition to the Frunch policy. The situation is one which cannot be wholly pleasing to France. She has ear-marked Morocoo as her own, and she is not prepared to pull the chestunts out of the fire of Germany any more than for England. Her dissatisfaction will not be diminished by the Kaiser's wifit to Tangier, where he is to be precived. Tangier, where he is to be received with every official honor, and where the Moors will wel official honor, and whore the Moors will wel-come him as a protector against Franch socroschneet. Now, is it too much to say that, before the disaster to the Russian arms, Germany would have been extremely careful how she touched France on a parti-cularly tender spot I as it, again, not clear that it is to the interest of Germany to try to Boyril supplies to the body the nourishment it requires, and makes good the muscle, tissue and energy spent during the hurry and worry of the day's work. GERMANY AND MUROCCO.

GERMANY'S POLICY.

FRENCH PRESS AND KAISER'S VISIT.

Berlin, March 29.

Count von Bulow confirmed in the Reichstag
that Germany did not seek any territorial
advantage in Morococ. She will simply see to
the maintenance of the policy of the "open
form."

BERLIN, March 29.

Count von Bilow, spanking in the Beichsteg, said that Germany's policy regarding the equal rights of all trading nations in Morceon is unchanged, but if an attempt wern made to change the international states of that country or the control of the "upon door," Germany must take increased beed that the economic interests in Morocco are not endangered. Germany, therefore, intended to enter into communication with the Sultan forthwith. (R.)

Pans, March 29.

The semi-official Prebs affects to be unconcerned as regards the Kaisar's journey to Tangies, but the tone of the newspapers generally in both countries shows that some significance is attached to the visit. It is certain that the Soltan is prepared to utilize the visit to the utmost, and the same is already stiffening his opposition to the French policy. (E.) Panis, March 29.

FISCAL RETALIATION.

MR. WALTON'S MOTION.

LONDON, March 29.

House of Comons.—Mr. Walton's motion condemning Mr. Bailour's policy of fiscal retalisation was adopted without a division, the Ministerialists deliberately abetaining from voting, in pursone of the Qorenment's desired not to participate in fiscal debates. (R.)

ARMY AND NAVY.

(FROM OUR CORRESPONDENT)

London, March 23.

No appointment has yet been made to the command of the British troops in Egypt. Pending the appointment of Major-General Slade's successor Brigadier-General U. M. Bullock, C.B., commands at Cairo.

Sir George S. White, V.C., will command at Gibraltar until June next. This is owing to the Approaching visit of King Edward to the Reek, and the reception of his Soversign will be amongst the last of the official acts of the old here who "kept the flag flying" in Natad.

Major-General A. G. Raper, C.V.O., is about to vacate the command of the lofantry Brigade at "Gib." There is no foundation for the remour that a battalion of infantry is to be withdrawn from the Rock.

o detachment of the 3rd Battalion Rifte de, which was left behind at Meerut, when the battalion moved to Aden, has like leatation, which is now at full gth.

sence of Viscoust Hayashi. The "Kashima" measures #15 feet in length, 78 feet in beam, still a displacement of 16,400 than. She yill cirry an armament of four 12 fach, four 10-inch, and twelve finel broeel-length grams and eighteen another gram, and a crew of 880 alt thick. She is the teath ship built for Japan as Elswick, but of ourse she cannot be delivered during the present war. At the subsequent lencheon Viscount Hayashi, Japanoso Minister, in responding to the tuest of "The Japanose Empire," stated that in his country's successes over Russia more than a dozen British-built battleships had had a good deal to do. He significantly added that if the "Kashima" did not take part in the present war she would be needed for the purpose of "maintaining peace in the Far East."
